## AROUND the TOWNSHIP

Number 13 holds no terrors for Lewis Lewis. On the other hand he rather likes the numbers.

Tuesday of last week Lewis and Mrs. Lewis celebrated their 13th wedding anniversary. At that time, he compiled the facts that he had lived in Niles 13 years and had completed 13 years' connection with the New Process Laundry Company. Of course his telephone number is Niles 13.

Two copies of The Township Register and a penny weathered the 27 years which the Niles Congregational Church stood until its destruction by fire on Wednesday afternoon of last week. All other contents of the can sealed in the cornerstone of the building were deteriorated beyond recognition, due to a poor job of sealing the stone with concrete which permitted a quarter of an inch of water to collect in the container.

The penny was dropped in the can by Marston Dassel, who now is a deputy county tax assessor, in 1911. The Register is dated March 4, 1911.

On top of losing most of his worldly possessions in the fire which destroyed the Congregational Church and the parsonage last week, Rev. R. C. Day lost the notes he had made for his speech at Thursday's meeting of the Niles Rotary club at the Hotel Belvoir. Besides, he lost a part of the 'Rotary Library'. As if this were not enough he was fined for the loss.

Nothing abashed, Mr. Day proceeded to deliver an unusually fine talk on "Rotary Ethics", opining that if the majority of the people in the world could live up to this code, there would be less discord, wars and uprisings.

James M. Wunnicks of 910 E. 17th st., Cheyenne, Wyoming, former Stanford student is "an honest man."

Cited several weeks ago for speeding near Warm Springs, he had returned to his home, overlooking the tag which was found later in his room by a school mate and forwarded to Judge Allen G. Norris at Centerville with the information that Wunnicks had returned to Wyoming and would not be able to answer the citation.

As a matter of form, the judge had duplicate cards sent to Stanford and to the Wyoming address and was favorably surprised this week when he received a check for \$5 from Cheyenne in payment of the fine.

### NEW TIRES TESTED ON RECORD DRIVE ACROSS COUNTRY

NILES—The latest cross country automobile record of 51 hours and 58 minutes over the 3192 mile route from Los Angeles to New York definitely proved the non-skid qualities of the new Goodrich safety tread, according to R. C. Attinger, Goodrich dealer here.

"In making this remarkable run during which he averaged more than 60 miles an hour, Bob McKenzie, veteran driver, encountered many miles of wet treacherous highway," Attinger said.

"On finishing the dash McKenzie told Goodrich officials that the new tires had the greatest resistance to skidding of any he had ever used in more than 15 years of fast driving.

"Using a stock model car equipped with the new Goodrich tires, McKenzie lowered his own coast-to-coast record by almost two hours."

NILES—Outlining of several major projects to occupy the attention of the Niles Chamber of Commerce this year took place at the first night meeting of the board of directors. Standing committees were appointed and six future objectives were listed.

The first item on the program of activities, placing electric directional highway signs, already is underway and will be completed in about another week at which time a public celebration will be held for the first lighting of the signs. Acting on this committee are Dr. T. C. Wilson, Dr. E. C. Grau, and E. A. Ellsworth.

Entries for finals in the five sports dash, high jump, broad jump, shot put and basketball throw, are based on the enrollment of the schools, one entrant allowed for every 100 pupils or fraction of 100 enrolled. One-room schools will be allowed two final entrants.

Edgar E. Muller, Alameda County superintendent of schools, is general chairman of the Junior Pentathlon committee. The executive committee includes J. L. Sheaff of San Leandro, Jack Prouty of Decoto, J. L. Bunker, county superintendent of attendance and Walter Raley of San Lorenzo.

Each boy competes against himself, weekly records being kept of his advancement. Each boy must compete in all five sports, thus not subjecting him to excessive training in any one sport.

### Assistant High School Coach Is Killed In Crash

DECOTO—Charles Joseph Baracchi, assistant coach at the Hayward Union High School, who was killed Monday morning when his car skidded on the wet pavement and crashed into a tree on the Decoto road, had been a college mate of numerous persons in Washington Township, among them:

Jud Taylor, coach at the Washington Union High School; L. W. Musick, principal at the Decoto Grammar School; Jack MacGregor, principal at the Newark Grammar School; and Lawrence Pine, Niles Scoutmaster.

The body was identified at the Chapel of the Palms mortuary by Musick who had attended a card party with Baracchi last Friday night.

The autopsy performed by Dr. E. C. Grau of Niles showed that the cause of death was a ruptured blood vessel in the chest and a fractured windpipe. It is thought Baracchi was killed instantly.

The body was removed to Palo Alto where the deceased had resided at 145 Kellogg St. This was his first year at the Hayward High School. He had been both track and football star at San Jose State College and had gone to Honolulu with the team. He was a member of B. P. O. E. 1471 in Palo Alto and was 27 years of age. He is survived by his parents and a sister who is employed on a San Francisco newspaper.

### Sign Up Opens In Apricot Prorate Pool For Growers

Members of the Alameda County committee of the state-wide apricot prorate were busy this week securing signatures of all growers to the petition to establish the prorate which seeks the elimination of poor grades of fruit, sales promotion and advertisement of apricots.

In charge of the campaign for Alameda, Contra Costa and Napa counties is A. N. Mardiros of Berkeley. Joe Shinn, Jr., is chairman of the local committee composed of Manuel Oliveira, Manuel Almeida, Clement Donovan, Walter Kempton and Harry Owens.

The prorate will provide for the pooling of culls and their disposal as by-products, the sales promotion and advertising of dried apricots and the payment of not more than \$1 per green ton for the above purposes.

A two-thirds sign-up is necessary to establish the prorate, this to represent 51 percent of the acreage. It is hoped that the sign-up will be completed by June 1. All growers are urged to contact committee members.

### MAN HELD AS VAGRANT PREFERS "MOVE ON" ORDER BY JUSTICE

NILES—William Dunlap, 35, escaped a county jail sentence on a charge of vagrancy when he promised to get out of the county and stay out. He told Judge J. A. Silva that he would seek work among the pea pickers at Milpitas if released and offered blisters in his hands as evidence that he was a hard working man.

Officers stated Dunlap had been picked up for vagrancy on four occasions, the first time at San Leandro, the others at various locations south of that city. He was arrested at Irvington by Deputy Sheriff George Wisner a few days ago.

### KRAFTILE COMPANY CLOSE TO WINNING SAFETY MERIT AWARD

The Niles plant of the Kraftile Company recently received a Certificate of Merit attesting to the fact that this plant had completed on January 15, 100,000 No-lost-time-accident man hours of operation. The last lost time accident suffered by any employee of this company was on February 8, 1937.

The management and employees are justly proud of this splendid safety record and in this connection C. W. Kraft states that as a result of having been entered in a nationwide safety contest in which some 40 or 50 plants are competing, much attention is being directed to the safe and pleasant working conditions maintained in this plant.

This contest closes April 30 and the Kraftile Company is tied for first place. Each plant placing first in this contest will receive a large beautiful plaque measuring 12x20 inches which becomes their permanent possession and all of the employees are so confident that such a trophy will be theirs at the close of the contest that a place to hang it has been already provided.

### Centerville Scout Troop Wins Major Portion Of Awards

CENTERVILLE—Centerville Boy Scouts walked off with the show at the monthly court of honor at the Centerville Grammar School Monday night, practically all awards going to that troop. As an innovation, the boys themselves presided at the court under the direction of Chairman George Coit who usually holds that position. Two Eagle Scouts, George Mathiesen and Tom McWhirter acted as chairman and clerk with Philip Brazil as keeper of badges.

The program included exhibition wrestling by San Jose boys, under the direction of Sam Della Maggione, wrestling coach at the San Jose High School. Those taking part were George Wingline, Pacific Coast Inter-Collegiate wrestling champion of San Jose State College; Fay Ford, Santa Clara County high school champion; Davey Hines, Bay Region champion of last year and Fernando Sereno of San Jose High School.

There were travel pictures through the courtesy of the Joe Adams Ford Agency and stunts by the scouts. Music was furnished by Albert Silva, accordionist; and taps were sounded by Gene Bettencourt, bugler of the Centerville troop.

Judge Allen G. Norris, chairman of the district, welcomed the visitors to the affair and praised the work of scouts, officials and the field executive W. T. Lindsay. Scouting is in a better condition than it has ever been in this township, Judge Norris said.

Robert Lewis of Centerville was received as a tenderfoot with the investiture service performed by the local troop. Second class badges were given to Joseph Soito, Anthony Maciel and Gene Bettencourt and merit badges to Allan Asakawa, Bob Carey, Roy Mathiesen, Billy Millet, George Emerson. First year pins were given to Richard Maciel and Anthony Maciel and a one-year perfect attendance pin to Bob Carey. Patrol leaders' badges were presented to Melvin Nunes, Bob Carey and an assistant patrol leader's badge to Jack Silva. Judge Norris received his district chairman's certificate.

### SERVICE STATION IS ADDING EQUIPMENT TO IMPROVE WORK

Improvement and expansion has taken place at Dick Attinger's Union Service Station, with installation of a Stop-Wear Lubatorium in connection with the modern greasing hoist already in use. The many preases and oils used in lubricating an automobile are thus placed ready at hand for the work.

Attinger also has had built a canopied outdoor salesroom for used cars being offered for sale through connection with the township Ford Motor Company dealer, Joe Adams, at Centerville. The striped awning adds to the attractiveness of the station.

Also, it is planned to install a complete car washing and polishing rack in the near future, Attinger said.

### TO OUR FIRE FIGHTERS

Praises for the work of firemen and appreciation of the newly acquired fire engine are ringing loud and long in Niles, since the conflagration of Wednesday afternoon of last week.

And rightly so. With the roof of the Congregational Church and parsonage building a mass of flames by the time an alarm could be sounded after discovery, it is small wonder that the building was doomed to destruction. The big wonder is that, in the face of the high wind, the damage to other property was held to the relatively small figure.

Joining in thanks to the firemen are not only those whose property was touched by flames and others threatened, but the property owners of the entire community. It was a great job of work, men.

### THE APRICOT PROGRAM

The success of cooperating marketing for farm products has been successfully demonstrated for years.

Just as successfully the agricultural prorate commission has demonstrated the worth of its marketing program in a number of crops, many of which are leading truck products of California.

Now the growers of Washington Township, together with growers of the entire state area, are offered an Apricot Marketing Program under the prorate commission. The sign up of petitions asking for institution of the program in time for the coming crop is now underway.

After a study of the entire set up, we see no reason for hesitancy in signing on the part of any grower, large or small, with good fruit or bad. As nearly as we can grasp the provisions of the prorate program, the entire crop will eventually be marketed in an orderly manner that can result only in profit to all producers of apricots.
